## TARBORO EYE ASSOCIATES & AESTHETICS

### TEMPSURE ENVI TREATMENT

Minimizes fine lines, wrinkles and tightens skin resulting in defined, tighter, younger looking skin while providing relief for symptoms of dry eyes from Dry Eye Syndrome.

### ICON MAX G

IPL Photofacial targets pigment in skin to reduce brown spots from age and other environmental factors. Also helps relieve the symptoms of Dry Eye Syndrome.

### ICON MAX R

Designed for hair reduction on the face & body. It eliminates the need for shaving, tweezing, and waxing providing a solution for unwanted hair.

### CHEMICAL PEEL

An advanced treatment that deeply exfoliates the skin to improve a variety of skin conditions including: fine lines/wrinkles, acne, and hyperpigmentation. Includes 7 days of post care products.

### ENZYME TREATMENT

Formulated to provide active exfoliation to the skin, enzyme treatments contain natural antioxidants that are designed to nourish, protect, and boost healing to any skin type slowing the visible signs of aging all while brightening and tightening.

### CUSTOMIZED FACIAL

A completely customized experience catered to your skin's needs every time.
